#### STATEMENT OF REASONS FOR ALLOWANCE

3 The following is an examiner’s statement of reasons for allowance:

The closest prior art of record (US 6,302,999 B1) teaches an optical brightener formulation comprising a mixture of compound having the formulae (1) to (10) (see cols. 2-6, the formulae (1) to (10)). However, the closest prior art of record (US' 999 B1) does not teach or disclose a fluorescent whitening agent comprising a mixture of compounds of the claimed formulae (1a), (1b) and (1c) of a mixture of compounds of the claimed formulae (2a), (2b) and (2c) as claimed). Accordingly, the claimed subject matter as whole would not have been obvious to one having ordinary skill in the art of a whitening synthetic or natural organic materials or in the art of synthetic fluorescent compounds.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
